Winter travelling to the Nalychevo valley

г. Петропавловск-Камчатский, 2019

Good afternoon, ladies and gentlemen!

My name is _____, I'm a student of the Kamchatka Medical college.

I'm glad to see you today and I want to offer to your attention a remarkable, amazing and very interesting ski tour to the Nalychevo Nature Park.

This tourist route is for people, who are experienced in cross-country ski and who are physically fit.

This 7(seven)-days trek is for those who like unforgettable impressions and strong emotions.

Why Nalychevo?

Because it's a unique land.

It's situated 70 km to the North of Petropavlovsk-Kamchatsky, in the valley of the Nalycheva river, surrounded by mountain ranges, active and extinct volcanoes.

And imagine, that in this comparatively small territory (2870 square km) there are more than 200 springs! Both hot thermal and cold mineral. So, there are natural hot baths both with facilities and truly wild, but not the less beautiful. And also there are cold narzan mineral springs, which you can taste.

Bathing in the Nalychevo hot springs is very useful for your health.

Besides, the nature of Nalychevo is really stunning! Picturesque scenery of surrounding volcanoes, rivers and lakes; stone birch forests; rich flora and fauna,- all this gives pleasure to your eyes and pacification to your mind!

Why in Winter?

- Bathing in hot wild pools, surrounded with snow, is very unusual!
- Additional pleasure for those who like cross-country ski.
- All the landscape is better to be seen.

-Good possibility to feel like the characters of the books of Jack London!

So, let`s see our route!

Day 1 Village Pinachevo, cordon Pinachevsky – cordon Semenovsky.

Our ski tour starts in the village Pinachevo, situated within 49 km from Petropavlovsk-Kamchatcky. It was founded in 1946 and named after the river Pinachevskaya, flowing close to the village.

This day we ski through the stone birch forests along the river-bed with the gradual ascending up to the cordon Semenovsky. The way is 20 km long. During the way you may admire the mountain ranges Kehkuy and Pinachevsky. Overnight stay in the hut.

Day 2 Cordon Semenovsky – moving via the Pinachevsky pass – Central cordon of the Nalychevo nature park.

This day we ascend the Pinachevsky pass. It is 1160 meters high. From above you can see a stunning panorama of Zhupanovskiy and Dzenzur volcanoes and the valley of the Nalycheva river. The access to the pass and climbing are not difficult even for untrained people. Only the weather may pose challenge. The descend doesn`t take much time, and after 12 km of wonderful forest you are at the Central cordon of the Nalychevo nature park. Overnight stay in the lodge.

Day 3 Free day and rest in the Nalychevo valley.

We enjoy hot-springs with facilities and wild, go to ski, watch one of the main sights of the park Nalychevo - travertine boiler. Next to it, there is a paved artificial stream, water from the boiler flows into the swimming place and then in the river Goryachaya (Hot).

A group of three hot mineral springs are refined and changing rooms are built on the bank of the Goryachaya river. The composition of the water in the baths has healing properties. The concentration of mineral salts has beneficial effects on musculoskeletal, cardiovascular and nervous systems.

Nearby it there is “Environmental Education Center” named after Vladimir Ivanovich Semyonov, a distinguished researcher of Kamchatka. There you can visit the museum, in which you can know about the flora and fauna of the park.

Day 4 Central cordon of the Nalychevo nature park – Talovskiye hot-springs.

Day trip to the Talovskiye hot-springs. 12km. During the way we visit Krayevedcheskiye mineral springs. At the Talovsky cordon we bathe in the hot-springs and even in the medicinal mud. Overnight stay in the lodge.

Day 5 Talovskiye hot-springs - Central cordon of the Nalychevo nature park.

Return to the Nalychevo valley(12 km), rest in the logde, bathing in the hot-springs.

Day 6 Central cordon – The bottom of the Koryaksky pass.

This day we start going back to Petropavlovsk-Kamchatsky via the Koryaksky pass. The access to the bottom of the pass is about 17 km along the Shumnaya river-bed. In case of good weather we may see all volcanoes around: Koryaksky, Avachinsky, Aric, Aag, Zhupanovsky, Dzendzur. Overnight stay in the tents.

Day 7 The bottom of the Koryaksky pass - moving via the Koryaksky pass – descending to the resort village – going back to Petropavlovsk-Kamchatsky.

This day we ascend the Koryaksky pass. It is 1538 meters high. From above you can see not only a stunning panorama of all the mentioned volcanoes, but also the city. Then we descend from the pass towards the city through the stone birch

forest. The route ends in the resort village "Pyataya stroyka". Then we go back to Petropavlovsk-Kamchatsky.

- **The route is gone on ski;**
- **All the huts and lodges of the park have furnaces;**
- **All the woods we can buy in the park;**
- **During the overnight stay in the tent and on the whole way we have portable stoves;**
